

HHH's FRIENDS

AI companion robots focused on nutrition and emotional well-being

FROM BEING FULL TO EATING WELL

EDUCATION

Make healthy and sustainable nutrition a mandatory part of school programs, raise awareness on impacts of unhealthy diets.

CONSUMERS

Make plant-rich diets the norm and reduce the consumption of animal sourced proteins to the amounts recommended by health experts.

COMPANY

Increase traceability and fight food waste through innovative solutions.

The future of food is not just about satiety

ARTIFICIAL INTELLIGENCE

Outline of the "Healthy China 2030" Plan 《“健康中国2030”规划纲要》

"National Nutrition Program"

aims to popularize nutrition knowledge, improve the nutritional structure of key groups

the "Three Reductions and Three Improvements" initiative

reducing salt, oil, and sugar intake, as well as improving oral health, maintaining a healthy weight, and strengthening bone health.

14th Five-Year Plan for National Health 《“十四五”国民健康规划》

the promotion of a balanced diet, encourages residents to read food nutrition labels, and advocates the concept of "integrating health into all policies" through inter-departmental collaboration.

Development Plan for Next-Generation Artificial Intelligence 《新一代人工智能发展规划》

Artificial intelligence (AI) as a national strategy and sets the goal that by 2030 China's overall level of AI theory, technology, and application will reach the world's leading standard.

Opinions of the State Council on Further Implementing the "AI +" Initiative 《关于深入实施“人工智能+”行动的意见》

August 26, 2025

Cultivate intelligent service formats with wider coverage and richer content, accelerate the development of efficiency-enhancing, companion-type and other intelligent native applications, and support the creation of new service entry points such as intelligent assistants.

COMPANION X AI ROBOTS

Market Trends

“ Depth And Authenticity Of Emotional Interaction ”

The Companion Robots Market was valued at **USD 1.26 billion** in **2024**
And it's projected to grow to **USD 1.43 billion** in **2025**,
with a CAGR of **14.65%**, reaching **USD 2.86 billion** by **2030**.

Thanks to the development of On-device LLM, the size of the affective computing market is projected to grow from USD **23.6** billion in **2023** to USD **74.3** billion in **2028**, with a Compound Annual Growth Rate (CAGR) of 25.8%.

This indicates that there is substantial market demand for technologies capable of understanding and responding to human emotions.

From "Programmatic Interaction" To "Generative Personalized Companionship"

Definition of "Generative Personalized Companionship"

It refers to an experience where users perceive the emotions of a robot as "authentic" and "unique" to themselves.

EMOTIONAL EATING

Loneliness is a common experience,
yet needs vary vastly

Let's see what everyone on the Internet thinks!

“ 和别人一起吃饭还能聊聊天，食欲也变好了 ”
Eating with others allows you to chat, and it even improves your appetite.

“ 会增加吃饭的乐趣 ”
This will increase the enjoyment of meals.

“ 原来“吃饭”和“一起吃饭”之间的差距挺大 ”
It turns out there's a significant gap between "eating" and "eating together".

快乐的小吃货

因为一个人太孤独了

能找到一个一起吃饭的人最幸福

发布于 2021-10-30 12:22

“ 随着外卖服务的普及，其灵活性和独立性意味着人们可以随时随地满足自己的口腹之欲，无需再受限于特定的时间或地点。 ”

As food delivery services become more widespread, their flexibility and independence allow people to cater to their culinary desires whenever and wherever they want, free from the constraints of fixed times or places.

People now eat on their own, emotional ties are no longer as strong as before. With the influence of food delivery, the original medium—shared dining—that fosters connections seems to be losing its significance.

吃饭各自为营，情感纽带不再，原始媒介似有似无

● Persona 用户画像

Professional Women

Work rhythm

Regular 996 schedule, average daily screen time of over 12 hours, relying on takeout for three meals

Current diet status

Binge-eats milk tea/fried chicken under high pressure; orders high-sugar takeout during late-night low moods

Mental state

Feels guilty about uncontrolled eating, desires self-discipline but struggles to persist

Underlying appeal

Longs to gain a sense of healing from food, rather than the emptiness after short-lived pleasure

Emotional void

Working overtime meals are eaten alone at the desk or in the rental room, **craving companionship yet only having phone videos to "dine with"**.

Name: Lin Wei

Age: 28 years old

Occupation:

Internet Product Manager

Condition:

live alone in a first-tier city

College Students

Study rhythm

Under heavy pressure from major courses and minor studies, averaging 8 hours of self-study daily, pulling all-nighters during finals week

Current diet status

Relies on takeaways and snacks for hasty meals; when stressed, indulges in late-night binges on cakes and spicy strips, unable to control himself despite knowing it's unhealthy

Mental state

Feels guilty about uncontrolled eating, wants to change but always gets interrupted by deadlines

Underlying appeal

Longs for meals to bring a sense of healing, rather than the emptiness after fleeting pleasure; misses home-cooked dishes but has no time to make them

Emotional void

when wanting to ask someone to eat together, he scrolls through his WeChat contacts but can't find anyone, with his dorm table always having only his own takeaway box

Name: Chen Yu

Age: 21 years old

Occupation:

junior at college

Condition:

study away from hometown

● USER JOURNEY MAP 用户旅程

● PAIN POINTS & NEEDS 痛点与需求

**No outlet for emotions ;
No motivation to choose;
情绪没有宣泄的出口，没动力去
选择吃什么**

**Stress relief, feeling cared for
缓解压力，获得被关怀感；**

**Quick decisions, emotionally aware options.
被理解、获得即时的建议**

**No companionship, no joy.
没有陪伴，没有乐趣**

**Sense of company, small rituals.
陪伴感，仪式感**

**Body ignored, habits hard to
form.
身体被忽视，习惯难以养成**

**Micro-habit guidance, positive tracking.
微习惯引导，正向追踪**

INSIGHTS 洞察

1

WE OBSERVED

我们观察到

- We observe that when young people feel emotionally unstable, they often turn to food for comfort.
- Meals are fast, solitary, and emotion-driven — sometimes followed by guilt.
- **Food has shifted from physical nourishment to emotional outlet.**

2

WE HEARD

我们听到

~~“I’m too tired to think — I just eat whatever.”~~

“No one to eat with, I just grab something quick.”

“Sweet food cheers me up... but then I feel bad.”

“Honestly, I wish someone could eat with me.”

3

WE LEARNED

我们得知

- We learned that food is an immediate, intimate emotional outlet.
- Health is deprioritized — emotions come first.
- **Eating becomes a coping tool in the absence of choice, care, or company.**

4

WE INFER

我们推出

“

If we can design emotional meaning into eating — especially “who we eat with”
then food can become a medium of healing:

若我们能为饮食赋予情感意义 —— 尤其是“与谁一同进餐”这一点 —— 那么食物便能成为一种治愈的媒介

CONNECTING PEOPLE, SOOTHING HEARTS, AND STABILIZING ROUTINES.

联结人与人、抚慰心灵，同时稳固日常节律

”

**How might we turn eating into a warm,
emotionally accompanied experience
even when the user is eating alone?**

我们该如何将吃饭转变为一段温暖且有情感陪伴的体验，即便用户是独自用餐？

**陪伴感
(NOT EATING ALONE)**

**情绪价值
(EMOTIONALLY
ENRICHED EATING)**

**IP共食体验
(IP THAT EATS WITH
THE USER)**

● DESIGN STRATEGY 设计策略

**Use food as an emotional medium
to reconnect users with their
feelings through eating**

以食物为情绪媒介
建立情绪与饮食的积极连接

**Design an AI-powered IP
companion to simulate emotional
presence during meals**

引入AI驱动的IP陪伴角色
强化“吃饭不孤单”的陪伴感

**Gently guide users to build positive
eating habits with low-friction,
emotionally supportive tools**

以温柔、低负担的方式
引导用户形成正向饮食习惯

**Turn eating into a moment of feeling understood, accompanied, and cared for.
It's not just about what you eat
— but WHO YOU EAT WITH, AND WHETHER IT MAKES YOU FEEL GOOD.**

将吃饭转变为一个被理解、有陪伴、获关怀的时刻。这不仅仅关乎你吃什么
更关乎你与谁一同吃饭，以及这段体验是否能让你感到开心

● IP DESIGN

DESIGN CONCEPT

During the process of using the app, the IP image serves as an expression medium for AI agents that specialize in the relationship between user emotions and food.

在使用过程中，IP 形象“海海”化身 AI 代理的情感接口，专注连接用户的情绪与饮食。

The cute accompanying role of **Hai Hai** makes it easier for the agent to accept reasonable dietary suggestions, while providing users with more emotional value, which can compensate for the emotional value that users usually cannot obtain and vent on food.

软萌的陪伴感让用户更愿意采纳健康的饮食建议，也填补了那些原本只能诉诸食物的慰藉空缺，把情绪价值真正还给用户。

The food looks **delicious** today!

Iced American style breakfast with a small cake is a **nutritious and balanced breakfast**, starting a day full of vitality~ ^^

EMOTIONAL VALUE UP ↑

Thank you, Hai Hai!

I will pay more attention to nutritionally balanced food in the future

Yeah, **thank you for reminding me**, Haihai!

I've been under **a lot of pressure lately** and I **don't have an appetite**.What should I do? Please give me some advice.....QAQ

Mary, I suggest you bring a bottle of **yogurt** for breakfast to help with digestion.

Haven't you had some gastrointestinal problems lately?

FAMILIARITY RISE UP

APP DESIGN — AI COMPANION FOR EMOTIONAL SUPPORT

AI陪伴提供情绪支持

Mood-Based Food Recommendations

基于情绪的食物推荐

Suggests meals based on your current mood or health status.

Food Activities & Participation

食物活动与参与感

Offers fun and light interactive food campaigns to add joy and ritual to eating.

AI Companion for Emotional Support

AI陪伴与情绪支持

A warm AI character accompanies your meals, offering emotional comfort and encouragement.
AI虚拟形象陪你吃饭，给予温柔的情绪陪伴与鼓励。

APP Design — upload your mood 上传你的心情！

Easily log your meals by taking a quick photo — the system will automatically detect calories, food type, and emotional attributes,

helping you connect eating with your mood and health.

吃饭时可以随手拍照或上传食物，系统将自动识别热量、食物类型与情绪属性，帮你轻松建立“吃—情绪—健康”的连接。

After eating, upload your mood to reflect how the meal made you feel — and build a mindful habit.

吃完后上传心情，记录你的每一顿情绪

APP DESIGN——AI CHAT & MOOD AI聊天小海豹

Chat with the AI companion who comforts you and helps you choose food based on how you feel.

AI陪你聊天，安慰你、帮你选食物

After logging a meal with a photo, users can share what they ate, how they feel, and their current state with the community — creating connection and emotional resonance with like-minded people.

拍照记录后，用户可以将自己的食物、心情和状态分享到社群，与他人互动、共鸣，也能找到“和你一样的人”。

SYSTEM MAP

A gentle support system that uses food as an emotional medium to connect, comfort, and care — helping users feel accompanied, understood, and gradually build healthy habits.
让食物成为情感的媒介，带来连结、抚慰与关怀，让用户在“被陪伴、被懂得”中慢慢养成更轻盈的生活方式

THANKS FOR YOUR ATTENTION

Hope all the professors will offer guidance and corrections
